

IS YOUR FAMILY GROWING?

Get the support you deserve

Whether you are considering having a baby or are already expecting, UMR Maternity CARE can explain how to reduce your risk of complications and prepare you to have a successful, full-term pregnancy and a healthy baby.

How we can help

Healthier women are more likely to have healthy babies. If you're thinking about starting a family, our experienced OB/GYN nurses will help you understand your personal health risks and empower you to take action before you become pregnant. When the time arrives, our registered nurses will support you with timely prenatal education and follow-up calls, and will refer you to case management if a serious condition arises. Your CARE nurse will call you each trimester during your pregnancy and once after your baby is born.

We also offer two types of monthly events for members who are enrolled in or have completed the program: virtual classes and a breastfeeding support group.

If you are pregnant and are identified as high-risk, a CARE nurse will monitor your condition and work to reduce your claims costs throughout your pregnancy and the post-delivery period.

You can self-enroll in Maternity CARE or pre-pregnancy support, or you'll be contacted and invited to participate if you're identified as pregnant through a clinical health risk assessment, utilization review or other program referrals.

It pays to participate

You'll receive an incentive gift* as a thank you for participating in the program, sent to you after your delivery.

*To be eligible for the free incentive gift you must enroll during your first or second trimester and continue to actively participate in the program each trimester of your pregnancy.

Once enrolled, you'll receive ...

One-on-one phone calls with a CARE nurse who:

- Provides comprehensive pre-pregnancy and prenatal assessments
- Shares educational information before you become pregnant and throughout your pregnancy
- Encourages you to call with any questions or concerns and continues to reach out each trimester and again after your delivery to see how you and your baby are doing
- Sends a courtesy letter informing your physician that you're in the program

Guidance for your support person:

You may also choose to identify a support person who can receive an education call and electronic educational packet. The packet includes information to help them support you through your pregnancy, labor and delivery, and postpartum.

No-cost educational materials in the mail:

You can choose from a selection of high-quality books and other materials containing helpful information about pregnancy, pre-term labor, childbirth, breast-feeding and infant care.

CARE on the go:

The CARE app, powered by Vivify Health, allows us to meet members where they are by connecting them to CARE nurses through their mobile device. Our nurses can view individual health metrics from self-reported data or synchronized monitoring devices and are able to virtually connect with members by text, email or face-to-face via streaming video. It's free and confidential.

No cost:

Maternity CARE is a valuable benefit provided by your employer at no additional cost to you.

Confidential:

UMR CARE takes confidentiality very seriously. It's important to know that we won't share any identifiable, personal health information. UMR CARE programs operate in compliance with all federal and state privacy laws.
